Tel: (508) 230-0888

Fax: (508) 238-0803

Dear Easton Solid Waste and Recycling Program Customer,

This letter is to inform you that a new wheeled 96-gallon **“Single Stream Recycling Cart”** will be replacing the small green recycling bins you are now using. Waste Management, our trash vendor, will begin collecting your recycled items in this new cart on the week of July 25, 2011.

The current bins as well as any other container used to put recycling materials in, will no longer be accepted after the July 25th start date of the new cart program.

Also the Town will not be collecting any of the used small green bins. These bins are yours to keep for other uses.

Thank you for your participation in the Town of Easton’s Solid Waste and Recycling Program.

Any questions, please call our main program number at (508) 230-0888.
