Re: Notification of mosquito adulticide applications

The purpose of our adulticiding program is to control nuisance and/or disease carrying adult mosquitoes. Our adult program will begin on June 1, 2011 weather permitting.

The control material being used will be Anvil (Sumithrin, EPA Reg. #1021-1688-8329) applied in ultra low volume sprayers.

The following number: 617-582-6218s furnished, on a 24-hour basis from May 10 through October 31, to allow residents access only to schedules and locations of adulticiding a day in advance to applications. I want to emphasize that this number will not be used to request spraying.

Our office will be open Monday-Friday between the hours of 8:00 a.m. to 3:00 p.m. for spraying requests and to obtain further information. Our office number is 508-823-5253. We can also be reached via fax, 24 hours a day, at 508-828-1868 and by email:
